### **KAISERSLAUTEN**

#### **Civic Centers in Western Palatinate are open again**

Effective today civic centers in western Palatinate open again. They were not accessible for approximately one week as a new software package had to be installed state-wide. During this time it was not possible to request an ID card or to extend a parking license. Now forms like registration cards or certificates of conduct can now be requested again. The new software is being used by all registrar offices, and all offices which issue ID cards or passports. This is to ease administration processes.
