

Hygiene concept for flea markets, special markets and similar markets with various outdoor goods (does not apply to weekly markets)

(IAW pertinent corona ordinances of the state of Rhineland-Palatinate)

1. The current distance requirement and the applicable contact restrictions are guaranteed by the following measures:

- a. The area must be clearly marked by a barrier and provided with a central access and a central exit. Access control must be carried out by setting up fixed barriers, by installing security guards or by attaching barrier tape.
- b. On the site, the distance requirement and the limitation of persons (1 person per 10 sqm with an area of up to 800 sqm, or 1 person per 20 sqm in an area exceeding 800 sqm).

2. Organization of the event:

- a. One-way regulation with suitable marking is to be provided for the routing on the site.
- b. There must be a minimum distance of 6 m between rows of sales; the lateral distance between the stands must be at least 3 m.

3. Individual measures:

- a. Access to persons with symptoms of a respiratory infection has to be denied.
- b. Organizers, providers and visitors must always wear a mouth and nose cover.
- c. For event staff, providers and visitors, the applicable protective measures and rules of conduct (including general rules for protection against infection, classification of cold symptoms, etc.) are to be identified by suitable signs.
- d. All people must disinfect or wash their hands when entering the event. The organizer must provide suitable washing facilities and disinfection dispensers.

4. Facility related measures:

- a. Contact surfaces should be cleaned regularly with a grease-dissolving household cleaner or disinfected with an at least limited virucidal agent.

b. Catering is allowed either under the requirements for street sales (kiosk without seats) or the requirements for the gastronomy (food or drinks are only consumed at tables. Bar and counter areas can be used for the sale and delivery of food and beverages; however, these areas are closed for the stay of guests).

5. In general:

- a. A responsible person must be appointed on site to ensure compliance with the regulations.
- b. Persons who are not prepared to comply with these rules are to be denied access within the framework of the domestic authority.
- c. In addition and upon request, the responsible authority can, in justified individual cases, allow exceptions or other hygiene requirements if a requirement under a corona ordinance is not mandatory, the level of protection appears comparable and the purpose of the corona ordinance is observed.
