

Hygiene concept for outdoor events with up to 350 people at the same time

This includes meetings of groups of people with up to 350 participants at the same time.

1. The current distance requirement and the applicable contact restriction are guaranteed by the following measures:
 - a. The distance of at least 1.5 meters per person must be ensured, unless the applicable Corona Control Ordinance does not meet any other regulation.
 - b. Measures must be taken to control access and to maintain the distance requirement, including appropriately procedural signs. As far as possible, one-way regulations are to be made. Waiting areas (e.g. in front of sales stands and toilet facilities) must also be marked to ensure that the minimum distance is observed.
2. Organization of event management
 - a. Organizer is obliged to record the contact details of all persons entering the event (last name, first name, address, telephone number) and the period of the visit to the event. These are to be kept for a period of 1 month starting on the day of the visit and then destroyed in compliance with the General Data Protection Regulation Using the data for other purposes is not permitted.
 - b. Reservation or registration is required. It is recommended to set up ticketing systems that flexibly allow an automatic minimum distance.
 - c. The use of sanitary facilities is permitted taking the required protective measures into account
 - d. Catering may take place under the specifications for the catering trade.

e. The permissible time extension of the event is based on the applicable Corona Control Ordinance.

3. Individual measures:

a. Persons with identifiable symptoms of a respiratory infection should be denied access.

b. All people must disinfect or wash their hands when entering the event. Suitable washing facilities or disinfection dispensers are to be provided by the organizer.

c. The applicable protective measures and rules of conduct (including general rules for protection against infection such as "sneeze rules," classification of cold symptoms, etc.) must be identified by suitable signs.

d. Visitors and employees wear a mouth-nose cover, if the Corona Control Ordinance in the currently applicable version so requires.

e. A glass shield can protect cashiers. Personnel who are protected by a glass protective shield or other suitable protective measures are exempt from the obligation to wear a mouth-nose covering.

f. The hygienic concept for outdoor sports should be used when exercising.

g. The rental of objects is not permitted unless they can be disinfected after use.

4. Institutional measures:

a. Hand sanitizers, liquid soap and disposable towels must be provided in sanitary, common and break rooms.

b. Specific measures must be taken to minimize the exposure to aerosols in rooms. All rooms must be adequately ventilated.

5. In general:

a. A designated person must be appointed on site to assure compliance with the regulations.

b. Persons who are not willing to comply with these rules are to be denied access or residence within the framework of the domestic authority.

c. For the rehearsal and demonstration operation, among other things, the current version of the administrative aid for the administrative professional association (VBG) - Hamburg "SARS-CoV-2 occupational safety standard - Recommendations for the stages and studios for the rehearsal sector" can be used.

d. In addition and upon request, the responsible authority can, in justified individual cases, allow exceptions or other hygiene requirements on request, if a requirement under the corona ordinance is not mandatory, the level of protection level appears comparable and the purpose of the corona ordinance is observed.
