

# How to get EU COVID VAX Digital Certificate in Germany

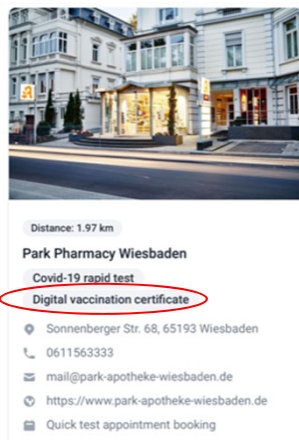

## 5 Simple Steps using your personal Mobile Phone

### Find an Apotheke near you

1. Go to: [www.mein-apotheekenmanager.de](http://www.mein-apotheekenmanager.de)
2. Enter your Postleitzahl
3. Select "Digital Vaccination Certificate" under "Service"
4. Hit "Search" button to get a list of Apotheken providing EU Vaccination Digital Certificates

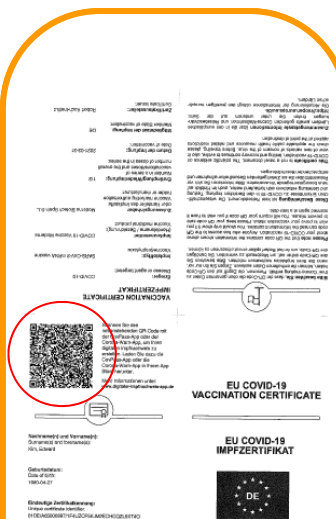

1

### Bring Documents to Apotheke

1. Go to an Apotheke that does "Digital Vaccination Certificate"
  2. Present CDC Vaccination Card AND Passport or DoD ID
- \* Be mindful of opening hours

2

### Receive Paper Certificate

Apotheke will provide 1x paper certificate for each dose received with QR-Code for FREE

\*\*Due to high volume of demand, your Apotheke may take copy of your documents and ask you to return in 1-2 days to pick up the certificate

3

### Scan QR-Code(s) to CovPass-App

1. Download CovPass-App from a German App store\*\*
2. Follow simple instructions and scan the QR-Code(s) for each dose received

\*\*German App Store account required for Apple. Android users can use the American App store.

4

### You are all set. Enjoy!

CovPass-App is your pass to facilities, establishments, and services requiring negative COVID test such as: public transit, stores, restaurants, gyms, pools, border crossings, amusement parks, hair/nail salons, clinics, airplanes, boats, tourist attractions, etc.

# Apple: How to use the European App Store

---

1. This App is only available in the Apple European App Store and may require additional steps depending on your situation. The app is COVPASS (app is in German only)
2. For those who have subscriptions in the Apple App Store, the easiest way to find the App without affecting the subscriptions is to create a new Apple ID using Germany as your County. Once you have a new Apple ID account, you can easily switch between each Apple ID using the following procedures:
  - a. Go to the Settings App
  - b. Tap on Your Name/Account. This is the first item in the list, will say Your Name, AppleID, iCloud, etc.
  - c. Tap on Media & Purchases
  - d. There are two paths.
    - i. **If you're on iOS 14.5**
      1. In the dialogue box that opens, click on the little blue person icon in the top left corner. This is the sneaky place Apple hides the Sign Out setting in iOS 14.
      2. At the bottom of the screen tap Sign Out of Store.
      3. You can now sign back in using a different Apple ID
    - ii. **If you're on iOS 14.6**
      1. In the dialogue box that opens, it will say Sign Out
      2. Tap Sign Out
  - e. Once you are signed out, you can sign back in with your German App ID. You will have to switch back and forth between Apple IDs every time you need to use the CovPass app.
3. If you don't have subscriptions and don't need an additional Apple ID, then all you have to do is the following
  - a. In the **App Store** on your **Mac**, choose **Store** > View My Account, then click View Information.
  - b. In the **Apple ID** Summary area, click **Change Country** or **Region**.
  - c. Click the pop-up menu, choose a **country** or **region**, then follow the onscreen instructions.
