2.1. **Eligibility Requirements**

2.1.1. Compliance is mandatory for all Air Force military and civilian personnel, as well as DoD contractors supporting AF missions, deploying to U.S. European Command (USEUCOM) Area of Responsibility (AOR) in support of named operations regardless of Plan Identifier (PID). DoD contractor personnel are only included to the extent provided in the applicable contracts or according to DoD and Air Force policy.

2.1.1.1. These reporting instructions are intended to supplement or enhance information contained in Air Force Instructions (AFI). Please refer to applicable AFI(s) for basic guidance.

2.1.1.2. All personnel tasked to deploy must follow guidance in U.S. Air Forces in Europe (USAFE) Reporting Instruction (RI) **first**; then adhere to applicable site specific RIs.

2.1.1.3. All personnel tasked to deploy to USEUCOM AOR and traveling to United States Africa Command (USAFRICOM) AOR as part of day-to-day operations, must adhere to USAFE and AFAFRICA RIs as well as any applicable Site Specific RIs. All RIs can be accessed via Air Force Reporting Instructions Tool (AFRIT) on AEF Online website. To find these documents, navigate/ expand to the correct Component AOR – **AFRICOM [or EUCOM]**, expand **General Policies**, and select **AFAFRICA [or USAFE] Reporting Instructions**.

2.1.2. **Security Clearance**

2.1.2.1. Personnel deploying to USEUCOM AOR must have a minimum of a current SECRET clearance (investigation must have been completed in the last 10 years). Interim SECRET clearance eligibility is acceptable if it can be verified in the Joint Personnel Adjudication System (JPAS). Line remarks will dictate if a higher access is required.

2.2. **Deployment Travel Orders**

2.2.1. By order of the Secretary of Defense (SECDEF) and the USAFE Functional Area Manager (FAM), personnel traveling to the USEUCOM AOR in support of named operations and exercise execution must travel via Contingency, Exercise, and Deployment (CED) orders. Personnel should not travel in support of named operations/ exercise solely on DTS orders. A DTS authorization will be created using the CED order and is required for travel entitlement payments (partial payments and final voucher completion). CED orders must state “Variations Authorized.”

2.2.2. To alleviate any classification concerns on the CED orders, the PID and/or operation name will be data masked. **DO NOT** data mask the deployment location.

2.2.2.1. **Fund Cites and ESP Codes**

2221.1. Units will use their local O&M fund cite with appropriate ESP code associated for the supported operation (if applicable).
2.2.2.1.2. If travel dates extend past 30 September, the orders must reflect both current and the next fiscal year fund cite.

2.2.3. Leave authorizations

2.2.3.1. Commanders are authorized to establish more restrictive policies to meet the needs of their particular mission and location. Please refer to HQ USAFE-AFAFRICA Leave Policy Memo for Deployed Personnel. To find policy, go to AEF Online and click AFRIT, then navigate/expand to the correct Component AOR – EUCOM, expand General Policies, and select USAFE-AFFRICA Leave Policy.

2.2.3.2. There are no authorized R&R locations in USUECOM AOR in accordance with JTR Chapter 4, 0405 – Rest and Recuperation (R&R) Locations and Destinations. Rest & Recuperation (R&R) leave programs are for members in a designated hostile-fire or imminent-danger pay area and authorization is dependent on deployed location. Personnel serving a 365 day deployment in an R&R authorized location are eligible. Refer to AFI 36-3003, para 7.8 and JTR Chapter 4, 0405 for guidance.

2.3. Meals and Lodging

2.3.1. Meal availability is the same for officers and enlisted. "Government meals are available and directed" is the default meal rate for the USEUCOM AOR. All orders must state this option UNLESS specifically stated otherwise in the site specific RIs.

2.3.1.1. For clarification purposes, "government meals are available and directed" means personnel will receive Government Meal Rate (GMR) and must pay for their meals (Breakfast/Lunch/Dinner). Review current GMR and/or contact local Finance Office for further information.

2.3.2. "Government lodging is available and directed," is the default lodging option for the USEUCOM AOR. All orders must state this option UNLESS specifically stated otherwise in the site specific RIs.

2.3.2.1. On-base lodging will be used to the maximum extent. Deployers will contact the appropriate lodging office immediately after travel arrangements are scheduled. If on-base lodging is not available, members must obtain a statement of non-availability from the base lodging office for proper reimbursement. Personnel must continually check with lodging for on-base availability.

2.3.2.2. If traveling to a location that does not have military or government contracted lodging available and off-base lodging is the only means available, orders should include the off-base lodging rate authorized for the locality. Non-availability letters are not required in this instance.

2.4. Incidental and Special Expenses

2.4.1. The standard per diem rules apply to both lodging and M&IE; for more information, refer to JTR, paragraph 020301.
2.4.1.1. If a traveler is unable to arrange suitable commercial lodging on their own, the Travel Management Company (TMC) should be contacted for assistance. If the TMC determines that lodging is not available at or below the locality lodging rate, the AO may authorize actual lodging, not to exceed the locality per diem rate, in accordance with JTR para. 020307.

2.4.2. All military personnel deployed to the USEUCOM AOR will receive the OCONUS incidental expense (IE) rate of $3.50 unless stated differently in the site specific RI. Any exceptions to more than $3.50/day must be stated in the CED order by the approving official IAW the JTR para 020304.F.3.

2.4.3. If unforeseen expenses not covered on the orders occur, a memorandum which includes justification of the expense as necessary for mission accomplishment must be signed by the deployed commander. This memorandum will be used as authorization for reimbursement of the expense when filed with the travel voucher.

2.4.4. For missed meals reimbursement, a completed AF FM 2282, Statement of Adverse Effect, must be signed by the deployed commander as the approval authority. This authority may not be delegated. Blanket type memorandums will not be accepted for reimbursement.

2.4.5. Personnel must use their Government Travel Card (GTC) for travel expenses and expect to pay mainly in cash for items from local economy. GTC holders must ensure card is valid through the duration of the deployment and must request adjustment of the travel card charge limits (through respective unit Agency Program Coordinator, as needed). Standard limits are $7,500 and cash advance limit is $750.

   2.4.5.1. Personnel who deploy with an expired GTC or whose GTC card will expire while deployed will be held responsible to arrange receipt of new/valid GTC at own/unit expense (non-reimbursable).

2.5. DoD Civilian Guidance

These protections are issued a Geneva Conventions ID card. The Geneva Conventions ID card is different than a standard CAC and should be requested through appropriate channels IAW DoD Instruction 1000.01, and AFI 36-507. Per AFMAN 34-102, para 2.1.3, if a civilian consumes a meal from the government dining facility or flight kitchen, or are provided a meal, they must update their DTS voucher to show that meal(s) was “available” or “provided” which will reduce the full meal rate per diem.
