

# DTC

The DTC is in the enterprise of building human performance capital. ***We focus on total well-ness, so that every Airmen is physically energized, mentally engaged, socially connected, and spiritually grounded.*** These concepts are delivered through intentional reintegration skill review and practice, as well as decompression opportunities. A study of 3K deployers showed that those who attended the DTC had significantly reduced negative outcomes regarding health and relationships (see graph inside).

# FAQs

- UOD: civilian attire
- Alcohol consumption is allowed
- Non attribution: nothing said goes into your medical record. The DTC is not a clinical/ medical program and will not affect any special duty status (flight/PRP/weapons...)
- Weapons are shipped prior to AOR departure or courtesy stored in Ramstein armory
- Redeployers stay in TLF; sometimes suites are shared, but each member has their own private bedroom
